

## **[Citrix 1Y0-309](#)**

**Exam Name:** Citrix Access Gateway 8.0 Enterprise Edition: Administration

**Q & A :** 114 Q&As

**[Pdf Demo](#)**

### **Quality and Value for the 1Y0-309 Exam**

[Exam4Dumps Practice test](#) for Citrix Citrix Other Certification 1Y0-309 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development. our products of the latest 1Y0-309 exam dumps, 1Y0-309 questions and answers is the real 1Y0-309 practice test.

[Citrix Other Certification Certification](#) 1Y0-309 Q&A are created by senior IT lecturers in exam4dumps certification Q&A network and Citrix Other Certification product experts combination PROMETRIC or VUE true-to-date environmental examination of the original title.

The Questions & Answers cover the latest real **1Y0-309 practice test** and with all the correct answer. we promise the 1Y0-309 Q&A for Citrix Other Certification 1Y0-309 (Citrix Access Gateway 8.0 Enterprise Edition: Administration) examination of original title complete coverage. 1Y0-309 Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

exam4dumps professional provide Citrix Other Certification 1Y0-309 the newest Q&A, completely covers 1Y0-309 test original topic. With our complete Citrix Other Certification braindumps resources, you will minimize your Citrix Other Certification cost and be ready to pass your 1Y0-309 tests on Your First Try, 100% Money Back Guarantee included!

### **100% Guarantee to Pass Your 1Y0-309 Exam**

If you do not pass the Citrix Other Certification 1Y0-309 exam on your first attempt using our Exam4Dumps **1Y0-309 testing engine and pdf study guide**, we will give you a FULL REFUND of your purchasing fee.

### **Downloadable, Interactive 1Y0-309 Testing engines and PDF Version**

Our Braindumps Preparation Material provides you everything you will need to take a [Citrix Other Certification certification](#) examination. Details are researched and produced by [Citrix Certification](#) Experts who are constantly using industry experience to produce precise, and logical.

**Free 1Y0-309 Exams:**

***This is demo only, this pdf do not include the questions and answers pictures***

1. Scenario: For security reasons, the administrator wants to automatically delete, without prompting users, the VPN users' browser cache, cookies and history (because it might have sensitive intranet corporate data) when users log off the Access Gateway 8.0 Enterprise Edition VPN.

Where can the administrator configure this so that ALL VPN users benefit from this setting?

Click the Exhibit button to view a screenshot of the Configuration Utility.

- A. Select SSL VPN > SSL VPN global settings > Client Experience > Client Cleanup Prompt then Advanced > General tab
- B. Select SSL VPN > SSL VPN global settings > Client Experience > Client Cleanup Prompt then Advanced > Client Options tab
- C. Select SSL VPN > SSL VPN global settings > Client Experience > Client Cleanup Prompt then Advanced > Client Cleanup tab
- D. Select SSL VPN > SSL VPN global settings > Client Experience > Client Cleanup Prompt then Security Settings > Advanced > Client Security tab

Answer: C

2. Scenario: A company currently has Secure Gateway in its environment. The company has been undergoing major expansions, and the number of employees has grown by 60% over the past three years. Recently, the company acquired a new company and is planning on integrating that company into its environment. Because of the growing number of employees, more servers and rack space are being consumed to support the growing user traffic. Which Access Gateway 8.0 Enterprise Edition deployment type would meet the needs of this environment?

- A. Access Gateway in VPN mode
- B. Access Gateway in Web Interface mode
- C. Access Gateway in Secure Gateway mode
- D. Access Gateway in Presentation Server mode

Answer: C

3. Scenario: Dual authentication is configured on the Access Gateway 8.0 Enterprise Edition appliance. The appropriate group extraction configuration is configured on both the primary and secondary authentication servers, and a VPN user named "jdoe" exists on both authentication servers.

How will groups be extracted for VPN user "jdoe"?

- A. The groups to be extracted will be chosen by the administrator.
- B. Only the groups in the secondary authentication server will be extracted and matched to the group names configured on the primary authentication server.
- C. Only the groups from the primary authentication server will be extracted and matched to the group names configured on the secondary authentication server.
- D. The applicable groups from both the primary and secondary authentication servers will be extracted and matched to the group names configured on the appliance.

Answer: D

4. Which policy must an administrator configure to ensure that every user device has personal firewall software installed and running before they connect to the network?

- A. Traffic
- B. Session
- C. Authorization
- D. Authentication

Answer: B

5. Scenario: An administrator wants users to be able to access back-end resources running on file servers and application servers in an environment. The administrator has Access Gateway 8.0 Enterprise Edition deployed, and the Secure Access client is used to establish VPN tunnels to the corporate network. There are no intranet applications configured in this environment, and split tunneling is turned off. Which two statements are true regarding why users in this environment will be able to access applications on file and application servers? (Choose two.)

- A. Users will be able to access file and application servers as long as they can authenticate through the VPN.
- B. Users will be able to access file and application servers because the back-end resources have been assigned specific intranet IP addresses.
- C. Users will be able to access file and application servers because the back-end resources in this environment have been configured as published applications.
- D. Users will be able to access file and application servers as long as an authorization policy is configured to allow them access to resources on the file and application servers.

Answer: AD

6. Which Access Gateway 8.0 Enterprise Edition policy would an administrator use to configure split tunneling?

- A. Traffic
- B. Session
- C. Authorization
- D. Authentication

Answer: B

7. Which command should an administrator use when setting up the network configurations on an individual appliance that will be used in a HA pair?

- A. config t
- B. config ag
- C. config ns
- D. config BSD

Answer: C

8. When creating the server certificate for an Access Gateway 8.0 Enterprise Edition virtual server in ICA Proxy mode, the Common Name (CN) should match that of the FQDN of the \_\_\_\_\_. (Choose the correct option to complete the sentence.)

- A. VPN virtual server
- B. Presentation Server
- C. Web Interface server
- D. Secure Ticket Authority server

Answer: A

9. An administrator created a new VPN virtual server without binding any session policies to it. What is the default authorization action for users logging in to this VPN virtual server?

- A. DENY. This is the default behavior.
- B. ALLOW. This is the default behavior.
- C. DENY. No session policy is bound to the virtual server.
- D. ALLOW. No session policy is bound to the virtual server.

Answer: B

10. An administrator is configuring remote access to applications through the VPN for specific users. All of the applications require a unique source IP address to access back-end resources. Which type of IP address should the administrator assign to these applications in order to ensure that they are accessible to the users?

- A. MIP
- B. SNIP
- C. NSIP
- D. Intranet

Answer: D

11. Scenario: A consultant is in charge of a new Access Gateway 8.0 Enterprise Edition deployment at a large customer site. The customer requires that the time zone on the appliance be set to Eastern Standard Time (EST).

Which statement is true about the time zone on the Access Gateway 8.0 Enterprise Edition appliance?

- A. The time zone setting updates automatically.
- B. The time zone setting on the appliance can be changed using the nsconfig utility.
- C. The time zone configured on the appliance is inherited automatically by any policies set on the appliance.
- D. The time zone of the appliance must match the time zone of the Web Interface server, if the virtual server is in ICA Proxy mode.

Answer: B

12. Which three pieces of information are logged by the Access Gateway 8.0 Enterprise Edition appliance in its audit logs? (Choose three.)

- A. Individual user's HTTP request, TCP connection and UDP flow statistics
- B. Individual user's ICMP flow statistics and Authorization failure log records
- C. Individual group's Login/Logout statistics and Authentication failure log records
- D. Individual user's Login/Logout, Group membership and Authentication failure log records
- E. System status events (for example: device up/down) and Configuration events log records

Answer: ADE

13. Scenario: An administrator needs to configure Access Gateway in order to replace the current Secure Gateway implementation in an environment. The administrator decides to configure the initial IP settings through a command line interface. Which command should the administrator use to configure the mapped IP address for this environment?

- A. add ns ip <mappedIP> <IPSubnet> -type ip
- B. add ns ip <mappedIP> <SubnetIP> -type snip
- C. add ns ip <mappedIP> <mappedIPSubnet> -type nsip
- D. add ns ip <mappedIP> <mappedIPSubnet> -type mip

Answer: D

14. An administrator needs to configure Access Gateway 8.0 Enterprise Edition to send the Access Gateway IP address to the RADIUS server as part of the RADIUS protocol. Which RADIUS parameter should the administrator configure on the Access Gateway 8.0 Enterprise Edition appliance to meet this requirement?

- A. Server Identifier
- B. Server Loop Back IP Address
- C. Network Access Server (NAS) Identifier
- D. Network Access Server (NAS) IP Address

Answer: D

15. When accessing an intranet site through Access Gateway 8.0 Enterprise Edition, which mechanism will load with a list of pre-configured resource IP addresses and port numbers?

- A. JavaScript
- B. Java Client
- C. ActiveX Plug-in
- D. Presentation Server Client

Answer: B

16. Scenario: An administrator configuring authorization rules wants to simplify the process by leveraging Access Gateway 8.0 Enterprise Edition. The administrator wants to extract groups to which a user belongs to, as part of the authentication process from the external authentication servers in the environment.

Which two external authentication servers can be leveraged when configuring authorization for users in an Access Gateway 8.0 Enterprise Edition deployment? (Choose two.)

- A. NT4
- B. LDAP
- C. RADIUS
- D. TACACS

Answer: BC

17. Scenario: A consultant is in charge of a new Access Gateway 8.0 Enterprise Edition deployment at a large customer site. The customer gave the consultant the following information and IP addresses to use when configuring the Access Gateway 8.0 Enterprise Edition appliance:

Internal Citrix Presentation Server 4.0 IP address: 192.168.100.12

Time Zone to be used: Eastern Standard Time (EST)

IP addresses to use when configuring the Access Gateway 8.0 Enterprise Edition deployment

NSIP: 10.165.30.45

MIP: 10.165.30.60

VIP: 12.15.30.62

Which two configuration options could be configured on the Access Gateway 8.0 Enterprise Edition appliance in order to communicate with the Citrix Presentation Server? (Choose two.)

- A. Subnet IP in the 192.168.100.x subnet
- B. Intranet IP in the 192.168.100.x subnet
- C. Static Route to the 192.168.100.x subnet
- D. Virtual Server in the 192.168.100.x subnet

Answer: AC

18. Scenario: A Network Administrator needs to configure access to published resources in a farm for Presentation Server, through Access Gateway. The administrator has been instructed to implement Access Gateway as a replacement for the current Secure Gateway deployment without SmartAccess. Which three settings does the administrator need to implement to meet these requirements? (Choose three.)

- A. Set NT Domain
- B. Set ICA Proxy to ON
- C. Configure split tunneling
- D. Configure the Secure Ticket Authority server
- E. Set the Access Gateway home page to the Web Interface URL

Answer: BDE

19. Which feature or option must be configured when split tunneling is set to "ON"? A.Bookmark B.Intranet application C.Authorization policy D.Authentication policy Which feature or option must be configured when split tunneling is set to "ON"?

- A. Bookmark
- B. Intranet application
- C. Authorization policy
- D. Authentication policy

Answer: B

20. Which option in the Configuration Utility allows an administrator to limit the number of users who can log in to an Access Gateway 8.0 Enterprise Edition environment?

- A. Select SSL VPN > Virtual Servers, Maximum Users
- B. Select Systems > Virtual Servers > Policies, Maximum Users
- C. Select SSL VPN > Global > Authentication settings, Maximum number of users
- D. Select Systems > Connections > Authentication settings, Maximum number of users

Answer: C
