Quality and Value for the 646-574 Exam

[Exam4Dumps Practice test](#) for Cisco Others 646-574 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development. our products of the latest 646-574 exam dumps,646-574 questions and answers is the real 646-574 practice test.

[Others Certification](#) 646-574 Q&A are created by senior IT lecturers in exam4dumps certification Q&A network and Others product experts combination PROMETRIC or VUE true-to-date environmental examination of the original title.

The Questions & Answers cover the latest real **646-574 practice test** and with all the correct answer.we promise the 646-574 Q&A for Others 646-574 (Ie Services Advanced Security (LCSAS)) examination of original title complete coverage.646-574 Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

exam4dumps professional provide Others 646-574 the newest Q&A, completely covers 646-574 test original topic. With our complete Others braindumps resources, you will minimize your Others cost and be ready to pass your 646-574 tests on Your First Try, 100% Money Back Guarantee included!

100% Guarantee to Pass Your 646-574 Exam

If you do not pass the Others 646-574 exam on your first attempt using our Exam4Dumps **646-574 testing engine and pdf study guide**, we will give you a FULL REFUND of your purchasing fee.

Downloadable, Interactive 646-574 Testing engines and PDF Version

Our Braindumps Preparation Material provides you everything you will need to take a [Others certification](#) examination. Details are researched and produced by [Cisco Certification](#) Experts who are constantly using industry experience to produce precise, and logical.

Free 646-574 Exams:

This is demo only, this pdf do not include the questions and answers pictures

1. Which service component In the security solution design phase provides a step-by-step plan detailing the installation activities and tasks to be performed In a controlled environment?

- A. staging Plan Development
- B. Detailed Design Development
- C. Implementation Plan
- D. Operations Design

Answer: A

2. Which activity is conducted as part of the Security Readiness Assessment?

- A. Document Logical-Level Functionality
- B. Assess and Document Infrastructure Requirements for the Proposed Solution
- C. Assess Existing Software Operating Procedures
- D. Perform Preliminary Gap Analysis
- E. Document Location of Legacy Equipment

Answer: C

3. Which service component draws upon the information that is collected throughout the prepare, plan, and design phases?

- A. Implementation Plan
- B. Staging Plan
- C. System Acceptance Test Plan
- D. Package and Price Design

Answer: A

4. In Which service component should troubleshooting of the endpoint solution be executed?

- A. System Monitoring
- B. incident or problem management
- C. Security Administration
- D. Configuration Management

Answer: B

5. Where are the current escalation procedures of the customer typically documented?

- A. High Level Design
- B. Preliminary Discovery Document
- C. Security Readiness Assessment
- D. Business Requirements Document

Answer: C

6. In Which service component is the analysis of the customer's current security policies and procedures performed?

- A. Site Readiness Assessment
- B. Kickoff Meeting
- C. Security Readiness Assessment
- D. Detail Design Development

Answer: C

7. For a security solution, which two tasks are associated with the Business Requirements Development service component? (Choose two)

- A. Perform Preliminary Gap Analysis
- B. Identify CSA, IPS or MARS System Requirements for Supporting Current Operating System Software
- C. Identify Key Stakeholders/Business Owners for the Business Requirements Workshop and Send invitations
- D. Assess Technical Infrastructure for the Security Solution
- E. Document Departmental Business initiatives Requirements
- F. Document Current Topology, Hardware and Software

Answer: C E

8. Which task must be completed during the System Acceptance TestPlan service component?

- A. Create a Plan to Ensure That All Hardware and software Functions are included
- B. Determine Network Elements That Will Be Tested
- C. Customer Signs a "Letter of Understanding" Based on the Design Created
- D. Agreement on the Logistics of the Implementation with the customer and Stakeholders

Answer: B

9. Which service component should be executed before change Management?

- A. Operation Assessment
- B. Operations setup
- C. Operations Design
- D. Escalation Process

Answer: B

10. Which resource is most often used during the Detailed Development: Feature/Functionality Design Development?

- A. Business Requirements Document
- B. Product Configuration Checklist
- C. Site Survey
- D. System Readiness Assessment Report
- E. Acceptance Test Plan

Answer: B

11. Which task is conducted as part of the optimization workshop?

- A. Document New Corporate Business initiatives Requirements
- B. Analyze and Document Hard Dollar, Productivity, and Business initiative Gains
- C. Monitor Endpoint Solution System Dashboard, Event Summaries, Graphs, and Alarms
- D. Document Systems, Processes, low-through, Tools, People, Skills, and Best Practices
- E. Determine Network Availability/Redundancy Specifications

Answer: A

12. Which activity is conducted by using CSA release notes as a resource?

- A. Determine CSA Feature and Function Design Specifications
- B. install S/W and Achieve Connectivity
- C. implement Policies and Groups
- D. Fine Tune the Custom Policy

Answer: B

13. Which two service components are performed during the Implement phase? (choose two)

- A. Security Readiness Assessment
- B. Staff Training
- C. Site readiness Specification
- D. Project Kickoff
- E. Configuration Management
- F. Design Review

Answer: B.D

14. Which task is performed during the development of a detailed design for CSA?

- A. Review and Generate an IP Addressing Scheme
- B. Determine CSA Feature and Function Design Specifications
- C. Define Policies and Groups
- D. Determine Network Availability/Redundancy Specifications

Answer: C

15. Which task is conducted as part of the Business case Alignment in the optimize phase?

- A. Conduct Network Assessment
- B. Analyze and Document Hard Dollar, Productivity, and Business initiative Gains
- C. Monitor Endpoint Solution System Dashboard Events Summaries, Graphs, and Alarms
- D. Document Systems, Processes, Flow-through, tools, People, Skills, and Best Practices
- E. Determine Network Availability/Redundancy Specifications
- F. List All Security Network Devices to Be Implemented

Answer: B
